

## Athlete FAQs

*There are numbers of companies that will put an athlete's information on a website. Why should I register with AllSportRating?*

*AllSportRating* using the proven "Pelatan Formulas" is able to numerically rate your athletic portfolio so you can be objectively compared to other team sport athletes in the same position anywhere in the world.

Because coaches are unable to visit all potential players in person, they need a formal, objective assessment of your entire athletic portfolio. The numerical rating provided by our company makes it very easy for coaches to determine your value, compared to another prospective player. *AllSportRating's* service has eliminated the need to spend an inordinate amount of time, effort, and money to assess your complete portfolio, which is a tremendous help to both you and the coaching staff.

*AllSportRating* also provides you with a peer rating. This rating ranges from 1 to 6 stars and depends not only on your stats, but is also influenced by this peer rating. This further solidifies recognition of your abilities and performance.

*AllSportRating* helps you increase your awareness by key people in the sports industry by providing you with a professional feature rich profile website. The PREMIUM Website contains your "Pelatan Formula" rating, picture, photo gallery, 3 five minute videos, performance and related accomplishments, printable trading cards, a data base search for coaches, resume page and so much more. You can send the link of your website to anyone for viewing. Teams, Coaches, Universities, and others who subscribe to *AllSportRating's* database have access to your information.

By bringing all the key people in the sports industry together in one location, you significantly increase your ability to be seen, recruited, offered, and signed by the organization that best matches your goals.

*AllSportRating offers two Athlete Website Options!*

*How do I know the rating formulas are accurate?*

The formulas were developed after years of study, calculation, testing, consultation with coaches, and modification. They were introduced to athletes five years ago and have been used repeatedly since then to validate their accuracy. Thousands of athletes in numerous countries around the world are currently registered with *AllSportRating* and use its services to promote their athletic portfolio.

When you register in a certain sport with *AllSportRating*, you are able to identify a primary and secondary position for it. You receive one rating, not two, for that sport; however, the secondary position is figured as a "plus" and is weighted into the rating for the primary position.

*I'm not one of the "stars" on my team. Why should I register?*

Just because you don't consider yourself a "star" doesn't mean you don't have the abilities and skills desired by an organization. There are MANY great athletes who go unnoticed every year by organizations because those groups have only enough resources to spend on scouting a few athletes. The remaining athletes must take it upon themselves to make their names known to organizations. Until now, this was an almost overwhelming and time-consuming task. With *AllSportRating*, your ability to promote yourself and be seen by the right people becomes much easier. Now, you can get your name in front of those you want with less time, effort, and monetary investment.

*I'm not trying to get a scholarship or get recruited by an organization. Why should I register with All Sport Rating?*

As an athlete, you understand the importance of goal setting to spur you on to improve your performance. Even if your goals do not include being recruited, you can still use *AllSportRating's* system as a barometer by which to measure improvement in your athletic performance. Being able to watch your rating improve as a result of hard work and continued focus on building your skills is a great incentive to continue performing in your sport.

*How do I register if I don't have a credit card?*

You can get your parents, grandparents, guardian or friend to use their credit card. If this is an issue, please contact *AllSportRating* at: [contact@sportrating.com](mailto:contact@sportrating.com) to work out an alternative payment arrangement.

*I'd like to register, but I don't have the money. Is there any way to get help any way fee?*

*Yes. We'd like to first suggest that you explore the possibility of obtaining a corporate sponsor. We've set up the athlete's website to allow a corporate sponsor to place its company logo/ad on the page in return for underwriting your registration fee. Sponsors also can have their own page to feature you on their site. Check out the Sponsor link on the front of the AllSportRating Company page and you can see how being an athlete sponsor is a great value to them.*

*What is FESTA Foundation?*

It is an acronym for a foundation that has been set up by *AllSportRating*. Its name is the Foundation for Educational Support through Athletics. Its purpose is to provide monetary assistance for deserving athletes for a variety of needs.

*Once I register and put in my current stats, can I update them?*

Yes. You have UNLIMITED updates.

*Which sports do you rate?*

*AllSportRating* rates all competitive sports. It is our goal to help all athletes find success. If you do not see your sport listed and you would like to have a web site, email [contact@sportrating.com](mailto:contact@sportrating.com)

*Can I register for more than one sport?*

With the Premium Website, your fee includes registration in one sport. This registration includes identification of a primary and secondary position. If you'd like to register in more than one sport, you can do so. You will incur a \$125 US fee for each sport in which you register with a Premium Web Site. You will need a different email address for each sport you registered in. You can register for FREE and then upgrade.

*How do those I want to see my website do that?*

You can send the link of your website to anyone you wish to view your athletic portfolio. They will be able to access your site without subscribing to AllSport- Rating's service. Those who subscribe to the service will be able to access your information as well as that of other athletes.

*Do I need to do anything else to promote myself with coaches, scouts, etc.?*

Yes, you need to understand that even though you are a great athlete, you must be proactive. The first step is to secure the services of *AllSportRating* to get sport rated and to generate your own website. AllSportRating will be providing education to help you learn how to promote yourself and enhance the number of opportunities you may have. They will provide additional tools to help you achieve the success you desire. Coaches, Schools, and Teams will also be doing a database search to find athletes.

*Does AllSportRating offer other services to athletes?*

*AllSportRating* plans to offer a variety of services to athletes, including a credit union and assistance with issues that arise due to relocation, etc. *AllSportRating* will be adding other tools to help athletes find success. *AllSportRating* will keep you apprised as they are activated.
