Why is the rating so important?

Coaches are unable to visit all potential players in person, yet, they need a formal, objective assessment of an athlete's entire portfolio. The numerical rating provided by our company makes it very easy for coaches to determine an athlete's value, compared to another prospective player. *AllSportRating's* service has eliminated the need to spend an inordinate amount of time, effort, and money to assess a portfolio, which is a tremendous help to both athletes and coaching staff.

AllSportRating not only rates athletes with one rating, but also provides them with a peer rating too. This rating ranges from 1 to 6 stars and depends not only on an athlete's stats, but is also influenced by their peer ratings. This further solidifies recognition of an athlete's abilities and performance making this a perfect data base search.

AllSportRating helps athletes increase their awareness by key people in the sport industry by providing them with a professional website. The website contains their rating, picture, 3 five minute videos, photo gallery, performance, printable trading cards, related accomplishments, database search for coaches, resume builder and so much more.
