

What is AllSportRating?

AllSportRating with the "Pelatan Formula" is able to numerically rate an athlete's performance, so they can be objectively compared to other athletes in the same position and sport anywhere in the world. Assessing an athlete's abilities and performance is now much easier with this rating and system.

Aime Pelatan, is the Founder of Sportrating, LTD., and the originator of the "Pelatan Formulas". Mr. Pelatan brings over 30 years of International Law experience to the Team Sport Arena.

He found there was a real need for recruiters and teams to find unknown talent in an easier way. Many unknown athletes around the world wanted to be known.

Mr. Pelatan, a math wizard, created formulas in his spare time, and knew if he could create a formula to help the athletes be rated and provide this service on the Internet, this could help athletes worldwide.

AllSportRating also provides the athletes with a peer rating. The rating ranges from 1 to 6 stars and depends not only on their stats, but is also influenced directly by peer ratings. This further solidifies recognition of their abilities and performance.

The "Pelatan Formulas" were developed after years of study, calculation, testing, consultation with coaches, and continual refinement. *AllSportRating* was introduced to athletes six years ago and has been used repeatedly since that time to validate the accuracy of the formulas.

Joe Francis is Co-Founder/President of Sportrating, LTD and brings many years of business expertise to the business. Together they provide great leadership and are here to help everyone find success.

AllSportRating helps athletes increase their awareness by key people in the sports industry by providing them with their own feature-rich profile website. The athletes input their stats in the back office of their website and their rating is formulated.

There are two kinds of websites, a BASIC website with basic info and a PREMIUM Website with all the "Bells and Whistles" for Only \$125. Everything a Team, Coach, or school needs to learn about the athlete is in one place. "Electronic Recruiting" at its best.

AllSportRating offers a search tool with a data base of athletes from all over the world representing 35 different sports. This search tool allows coaches, teams, and schools to search for athletes geographically by sport, position, height, weight, running speed, arm strength, stats and awards, along with SAT and ACT Scores—just to mention a few. There are around 2500 elements that can go into each rating.

AllSportRating also provides TEAMS with their own website to manage their athletes.

The TEAM Site offers:

Event Board
Event/Camp Registration System
News Section
Customized About You Section
Educational Emails and training from AllSportRating
3 Five Minute Videos
3 photo albums with 100 photos each
Feature Your Staff with picture and Info
Messaging System to contact your Team
Message Board
AllSportRating Resource Center and Training
Your Own Website URL

Thousands of athletes in numerous countries around the world are currently registered with *AllSportRating* and use its services to promote their athletic portfolio.

AllSportRating provides tools, education, and a system to help the athletes learn how to promote themselves. *AllSportRating* is the best of the best.
